## Description :

Prsentation de l'diteurBlack Sea is a homage to an ocean and its shores and a meditation on Eurasian history, from the earliest times to the present. It explores the culture, history and politics of the volatile region which surrounds the Black Sea. Ascherson recalls the world of Herodotus and Aeschylus; Ovid's place of exile on what is now the coast of Romania; the decline and fall of Byzantium; the mysterious Christian Goths; the Tatar Khanates; the growth of Russian power across the grasslands, and the centuries of war between Ottoman and Russian Empires around the Black Sea. He examines the terrors of Stalinism and its fascist

enemy, both striving for mastery of these endlessly colourful and complex shores, and investigates the turbulent history of modern Ukraine. This is a story of Greeks, Scythians, Samatians, Huns, Goths, Turks, Russians, Ukrainians and Poles. This is the sea where Europe ended. It is the place where 'barbarism' was born. UPDATED WITH A NEW FOREWORD BY THE AUTHOR

Revue de presse "Every page is freighted with rich and fascinating detail" (Independent) "A brilliant biography of place. The complex social, ethnic and extraordinary ecological histories of this region - combined with vivid anecdotes and encounters - provide the background for stimulating reflections" (Guardian) "Must certainly be among the year's most memorable non-fiction books" (Financial Times) "A scholarly desktop travel through lost worlds" (The Times) "A genuinely compelling book: erudite, original, beautifully written" (Literary )
