Biographie de l'auteur Kendra Leigh fell in love with words and reading as a young child. She was captivated when Enid Blyton whisked her away to the magical lands at the top of the Faraway Tree with Moon-face and the rest of the gang. Now, of course, she has more of a fondness for chocolate, cheese and hot men in suits not necessarily in that order. Kendra devotes her life to her devilishly handsome partner, scandalously beautiful daughter and cute as hell Shih-Tzu. She believes in love at first sight, and as well as writing and reading, Kendra has a passion for great movies and brilliantly written TV. The bestselling Bound Trilogy is her debut series. She is currently plotting and weaving a spin-off series to feature well-loved characters from the trilogy.
