Description :

Prsentation de l'diteur "Brunner writes about the future as if he and the reader were already living in it!"--The New York Times Book "When John Brunner first told me of his intention to write the book, I was fascinated--but I wondered whether he, or anyone, could bring it off. Bring it off he has, with cool brilliance. A hero with transient personalities, animals with souls, think tanks and survival communities fuse to form a future so plausibly alive it as twitched at me ever since."--Alvin Toffler, author of FUTURE SHOCKIn a world drowning in data and information and choking on novelty and innovation, Nickie Haflinger, a most dangerous fugitive who doesn't even appear to exist, provides a window onto a global society falling apart in all directions, with madness run amok and personal freedom surrendered to computers and bureaucrats. Caught and about to be re-programmed, can he escape once again, defy the government and turn the tide of

organizational destruction?"One of the most important science fiction authors. Brunner held a mirror up to reflect our foibles because he wanted to save us from ourselves."--SF SiteFor each generation, there is a writer meant to bend the rules of what we know. Hugo Award winner (Best Novel, STAND ON ZANZIBAR) and British science fiction master John Brunner remains one of the most influential and respected authors of all time, and now E-Reads is pleased to re-introduce many of his classic works. For readers familiar with his vision, it's a chance to re-examine his thoughtful worlds and words, while for new readers, Brunner's work proves itself the very definition of timeless.
